## THE SCORE CARD

This publication is an attempt at chronicling and bringing to public knowledge some of the salient, life impacting projects executed by the quintessential law maker and peoples' representative, in the person of Rt. Hon. Kwamoti Bitrus Laori (Esq.)- the Member, representing Demsa/Numan/ Lamurde Federal Constituency in the House of Representatives, National Assembly, in the last three years.

This publication became imperative given the fact that Demsa/Numan /Lamurde Federal Constituency of Adamawa State, though potentially rich in arable land and rivers that support commercial agriculture, resourceful people with a beautiful culture, yet it has remained eluded from development due to prolong period of poor representation and dearth of visionary leadership.

Until now, the people of Demsa/ Numan/ Lamurde have been under-represented, as a result not many knew the responsibility of an elected representatives, consequently, neither

demand accountability from them nor take part in decision making on issues that affect development. The introduction and entrenchment of a bottom-up approach to governance, where communities are made to be the drivers of sustainable development made it possible for a culture of inclusivity and joint decision making that gave voice to the marginalized in society.

The 3 Years of Purposeful Strides is essentially a compendium of the giant strides of the man many refer to as Silent Achiever, whom for his humility is not known for blowing his trumpet but prefer to silently work and produce phenomenal results to the amazement of his followers and opposition alike. It is worth note taking that, the performance of Rt. Hon. Kwamoti as a law maker is unprecedented by anyone before him in the history of Representation of his Constituency.

It is the intention of this majorly pictorial publication therefore to among others bring to lime light some of the positive developments and interventions sponsored by the member representing Demsa/Numan/Lamurde

Federal Constituency from the lens of a team player that have taken account of some of the salient activities of the law maker in the public domain for the purpose of public education, enlightenment and posterity.

One of the gaps that this publication also seek to bridge is to meet the demand of about 70% of constituents in Demsa/Numan/Lamurde who requested to know the projects executed by the law maker that are often referenced in previous town hall meetings held across the three local government areas. As peoples' messenger and servant KBL Media painstakingly assembled this material in response to the demand of the electorates whose voice now count, a development that is unknown prior to this moment.

Though KBL Media cannot boast of covering half of the many undocumented, unreported accomplishments of the law maker especially touching human capital development, empowerment of individuals, religious organizations or in form of humanitarian assistance which are seldom public or carried out off -camera. This publication is therefore

restricted to only what the camera lens of the Media Team have captured first hand and from materials provided by beneficiaries themselves.

This report chiefly covers projects executed in fulfilment of promises made to electorates in 2019, during the campaign tour of the 276 Polling Units within the 30 Registration Areas/Wards of Demsa/Numan/Lamurde Federal Constituency of Adamawa State, in response to some of the requests collected as feedback during previously held town hall meetings and other community engagements. Being a visionary leader, the law maker has established a democratic culture of engaging his constituents at certain intervals, during which some of the concerns expressed and those personally observed by the law maker are factored into the next legislative year by way of appropriation. This informs the choice and location of all the projects executed. In a nutshell, all the projects executed so far are products of public demand and needs assessment carried out by the law maker.

In the last three years, the law maker has vigorously pursued his tripod agenda of human capital development, critical infrastructure intervention and security of lives and property. Some of the results were achievable only with the collaboration of the executive arm of government. Given the competitiveness of demands, coupled with the lean resources available to government, it takes intense lobbying and advocacy visits to ministries, departments and parastatals to get the job done.

It is therefore not accidental that most of the projects executed by the law maker are not cosmetic but rather structural, with capacity to positively impact the lives of people, especially at the grassroots. The projects implemented in 17 out of the 30 Wards in the Federal Constituency affects education, health care delivery, water supply, sanitation and hygiene, youth employment, training and empowerment to boost productivity and skills for self-reliance. It is against this backdrop that KBL Media heartily present this publication, with the hope

that it serves as reference material that can be used for public education, enlightenment and information on the giant strides of the member, representing Demsa/Numan/Lamurde Federal Constituency in the House of Representatives, National Assembly between 2019 to June, 2022.

## SENSITIZATION & DISTRIBUTION OF HAND WASHING EQUIPMENT TO CURB SPREAD OF COVID-19

**PREVENTION IS KEY.**

Prevent the spread of Coronavirus (COVID-19)

- AVOID TOUCHING your eyes, nose, & mouth with unclean hands.
- AVOID CLOSE CONTACT with people who are sick.
- COVER YOUR MOUTH & NOSE with a tissue or your sleeve (not your hand) when coughing or sneezing.
- WASH YOUR HANDS OFTEN with soap & water for at least 20 seconds or use an Alcohol-based hand sanitizer.
- SAY HOME if you are sick.
- CLEAN & DISINFECT Frequently touched objects & surfaces.
